THE GREAT STORM.

Immense Destruction of Property in the Oil Regions—The Freshet at Utica and Rochester—The Railroads.

BUFFALO, Friday, March 17.—Three to 4 feet of snow fell in this vicinity. The Lake Shore, Erie and Central Roads are all more or less injured. The mails are delayed, and telegraphic communication with the East is interrupted.

DUNKIRK, March 17, 1865.

E. S. Spencer, Western Agent, Chicago:

The report of heavy damages to the Erie Railway is false. Small damages only on the Western Division. Trains will run regularly by Monday next.

O. S. W.

Agent, Dunkirk.

FRANKLIN, Pa., Friday, March 17.—We are having the greatest flood ever known in this region. The bridge at Oil City and the French Creek bridge at Franklin were swept away. Miles of railroad track are gone, and the telegraph lines on Oil Creek are washed away. Houses, tanks, barrels full and barrels empty cover the river. The loss is estimated by the million. The river is still rising.

ERIE, N. Y., Friday, March 17.—The water in this vicinity is three feet higher than ever before known. The gas works are effectually stopped. All the cars are out, and no gas can be furnished to the citizens after to-night. The Erie and Central Roads are all more or less injured. The mails are delayed, and telegraphic communication with the East is interrupted.

FRANKLIN, Pa., Friday, March 17.—We are having the greatest flood ever known in this region. The bridge at Oil City and the French Creek bridge at Franklin were swept away. Miles of railroad track are gone, and the telegraph lines on Oil Creek are washed away. Houses, tanks, barrels full and barrels empty cover the river. The loss is estimated by the million. The river is still rising, and a few hundred bushels of potatoes, which have been purchased by Mr. Lyon, Chandler began to pour into the river. Mr. Lyon stopped the flood, however, by calling out the police, and compelling them to give up. Two or three officers are all he found it necessary to detail. By this ordinance, eight hundred offices are made vacant at one blow. Governor Fletcher promises to reappoint all the loyal men elected by the people, the object being to guard on the disloyal.

The commander of the post at Cape Girardeau sends the following telegram, dated yesterday: "Lieut. Robert Davis, Co. F, 2d Mo. E., returning on furlough from a scout of seven days in Dunklegee, Stoddard and Scott counties. He reports killing Lieut. Reed, of Howard's guerilla company, and five men, and capturing two horses, with no casualties on his side.

Gen. Sweet's order setting aside Treasury permits to bring rebel cotton through the lines, has created a big sensation among the cotton speculators here, some of whom have permits to receive as high as one thousand bales.

WISCONSIN LEGISLATURE.

[Special Dispatch to the Chicago Tribune.]

MADISON, Thursday, March 16.

In the Senate several bills were introduced, mostly local, but including one to amend Chapter 5, Statutes of '58, relative to homesteads so as to provide more clearly that the homestead should go to the widow in case of the death of the owner, unless she should remarry. Also several bills amending the laws of '61

AFTER THE WAR.

Some of our Copperhead contemporaries are seeking to "split hairs" about the meaning of the word "loyal," which for the last few years has been applied to the Southern Rebels. They say that the Rebels were not disloyal, because they were not fighting against the Government, but only against the Administration. Such a distinction is too fine for the average mind to grasp. It is all the supposed or real hostility to the Administration that has caused the Rebellion. Had the Rebels been willing to support the Administration, they would have been loyal, and would have received pardon and protection. Had they
